PROFESSIONAL SUMMARY

Frontend engineer with 3+ years of professional experience, plus a 2-year intensive STEP internship at ThoughtWorks, building Angular and TypeScript applications across health-tech and enterprise device-management domains. Strong in Angular, React, TypeScript, RxJS, micro-frontends, design systems, accessibility, state-management modernization, and API integration.

TECHNICAL SKILLS

Languages & UI	Angular 14+, React, TypeScript, JavaScript ES6+, RxJS, HTML5, CSS3, SCSS/SASS
State Management	Elf, Akita, NgRx, Redux, Zustand
Frontend Architecture	Micro-frontends, Module Federation, RESTful APIs, component libraries, design systems
Testing	Jest, Cypress, Mocha, Testing Library, TDD
Backend & APIs	Java, MongoDB, database migrations, Axios, API integration
Standards	WCAG 2.1, ARIA, HIPAA compliance
Tools & Automation	Git, GitHub, Bitbucket, Webpack, Jenkins, CI/CD, Bash scripting, shell automation, GitHub Copilot, Claude Code

PROFESSIONAL EXPERIENCE

Software Engineer 2 - Frontend - ModMed, Hyderabad

Sep 2025 - Present

- Migrated legacy AngularJS architecture to Angular 14, modernizing core modules and reducing long-term maintenance risk.
- Delivered a complex issue-selection feature for a React-based patient check-in flow within the first week of joining.
- Audited and resolved accessibility gaps across priority screens, improving ARIA usage, contrast compliance, and interaction quality.
- Developed and maintained an Angular-based digital health application supporting patient and practice workflows with secure clinical data handling under HIPAA compliance.
- Accelerated defect diagnosis and delivery cycles using Bash scripting, shell automation, and AI-assisted development workflows.

Software Engineer - Frontend - ThoughtWorks, Bengaluru

Jul 2023 - Sep 2025

- Engineered the SmartOffice Portal, an Angular-based enterprise application for centralized and secure device management across multiple organizations.
- Co-led a micro-frontend migration and state-management modernization from Akita to Elf, enabling the team to ship 3 independent releases per quarter.
- Built a reusable, accessible design system with 25+ ARIA-compliant responsive components, adopted by 5+ teams.
- Served as primary UI reviewer across 200+ PRs, organized Angular, Atomic Design, and Elf workshops, and supported frontend onboarding standards.
- Wrote and integrated REST APIs with complex multi-form validation using Java, MongoDB, Axios, and RxJS, improving error handling across critical user journeys.

STEP Intern - ThoughtWorks, Bengaluru

Feb 2021 - Jul 2023

- Completed an intensive multi-year engineering program covering modern web fundamentals, Agile/Scrum practices, and Test-Driven Development.
- Built a Unity-based Model Viewer for Lenovo AR Glass, enabling real-time rendering and interaction with complex 3D device models for client demos.
- Implemented AppCast functionality to stream the AR headset view to mobile devices for remote client demos and troubleshooting.
- Wrote comprehensive Jest tests across multiple feature deployments, improving reliability and code quality standards.

EDUCATION

Bachelor of Computer Application - Alagappa University, Karaikudi	2023
Diploma in Computer Science - Aditya University, Surampalem	2020 - 85.6%
